Warnings

To reduce the risk of fire, electric shock and other injuries, keep these safety precautions in mind when installing, using and maintaining your TV. The mains outlet should be installed near the equipment, be easily accessible. The TV should be connected to a grounded GFCI protected mains outlet.
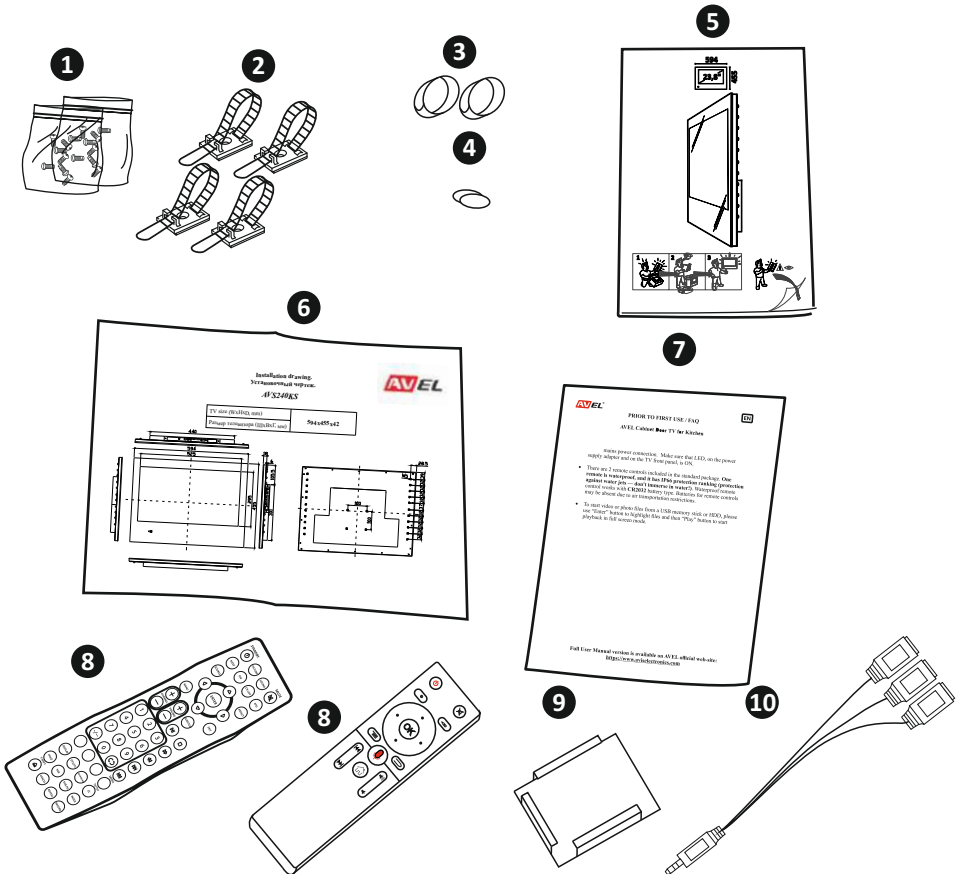

- To protect against electric shock, do not immerse the power cord, power plug or product in water or other liquid.
- Do not overload AC outlets or extension cords. Overloading can cause a fire.
- Close supervision by adults is necessary when a product is used by or near children.
- Do not operate the product with a damaged cord or plug or if it has been damaged in any manner.
- Do not let the power cord get in contact with hot surfaces.
- If you notice any smoke or scorched smell near the product, unplug the power cord and contact qualified personnel for service or repair.
- Do not use or place any combustible or flammable substances near the product.
- Do not use this product for other than intended use.
- This product is intended for indoor use only.
- For added safety, during a light storm, or when this product is left unattended and unused for a long time, unplug it from the wall outlet and disconnect the antenna.
- Do not use detergents containing abrasives.

Troubleshooting

| Symptoms	Possible Solution
Blank screen	Check the LED indicator. If the LED indicator is red, the TV is in standby. If the LED indicator is green, try to change input/source. If the LED indicator is black, check the power connection.
Remote control doesn't work	Point the remote control to the TV and press power button on the remote control. If the status LED becomes green, remote control is OK. If not, replace the batteries of the remote control.
